

PERSPECTIVES SERIES

Call for submissions for ABS Perspectives Series

Abstract Submission Deadline: 12/18/2020

Full Submission Deadline: 02/01/2021

Contact: jessicagilbert@tamu.edu

The [Applied Biodiversity Sciences Program](#) at Texas A&M University requests submissions for the 9th issue of the *Applied Biodiversity Science Perspectives Series*.

The [Applied Biodiversity Science Perspectives Series](#) is a student-centered online publication dedicated to communicating conservation research to academic and non-academic audiences. The collection of articles, essays, and reflections share the insights, opinions, and experiences of undergraduate and graduate students, faculty, and collaborating organizations involved in biodiversity conservation at Texas A&M University and worldwide.

The Perspectives Series requests submissions from students and faculty whose work focuses on natural resources, conservation, and the environment. Accepted submissions are published and indexed through the OakTrust Digital Repository of Texas A&M University. Accepted authors are required to complete a non-exclusive distribution copyright.

SUBMISSION GUIDELINES

- Note or Comment: 500-1000 word limit, maximum 2 high resolution images
- Paper: 1,500 – 3,000 word limit (including references and tables), maximum 5 high resolution images

Submissions should be in the form of, but not limited to, the following:

- *Essay* (or photo-essay) related to field experiences while conducting research internationally or domestically.
- *Commentary* on issues, research, and policy pertinent to natural resources, conservation, and the environment.

- *Research summary* of student research findings or novel insights presented in a popular-press format.
- *Prospectus* of future research projects in-development or those having preliminary results.

Please submit an abstract or a statement of interest using the [Abstract Submission Form](#) by December 18, 2020

Deadline for complete submission is February 1, 2021.
